9.0 Statement of Housing Needs

[24 CFR Part 903.7 9 (a)]

According to the latest available U.S. Census Bureau data available through the American Community Survey updated through 2012, 11.5% of Richland County families (3716) are living below the federal poverty level. Of that total, 34.7% are female-headed households living below the poverty level in Richland County (47.4% of female-headed households with children).

The Housing Choice Voucher waiting list of the Mansfield MHA now totals 1070 families at the time of writing of this plan. Of this total, 4.7% (50) are elderly head-of-households, and 95.3% (1020) are families, of which 76.9% are female head-of-households, 23.1% are male head-of-households, while 74% of the elderly households are female-headed, and 26% of the elderly households are headed by males.

Minorities comprise 42% total of the current waiting list, of which 434 (40.6%) are black; 2 (0.2%) are Indian; 3 (0.3%) are Asian and 10 (0.9%) are Hispanic.

A total of 967 households (926 families and 41 elderly households) are classified as very low income on the waiting list.

Of the applicant families on the waiting list, 533 have no children; 227 have one child; 189 have two children; 74 have three children; 29 have four children; eight have five children; five has six children, one has seven children, one has eight children, and three have nine children.

The Housing Choice Voucher waiting list is currently open, with the agency accepting applications one day a month for a three-hour period. Applicants are placed on the waiting list on a first-come, first-serve basis (date and time of application) and the only preference the Authority maintains is for veterans, service members and their families.

The Mansfield MHA would like to assist all of these families expeditiously; however, because of the scarcity of rental assistance available nationwide, that is nothing more than a hope at the present time. The economy has forced many households to “double up,” even though there are significant numbers or quality rental units available throughout all areas of Richland County.

9.1 Strategy for Addressing Needs
The Mansfield MHA will apply for any Housing Choice Vouchers that are made available by the U.S. Department of Housing and Urban Development, either free standing or special needs, such as MainStream Vouchers, if the Authority meets the eligibility requirements for said applications. In addition, the MMHA will continue to investigate the possibility of developing, on its own and in partnerships with other local and state agencies, more affordable housing throughout Richland County, although this is difficult for a small, financially limited, HA to accomplish.

(1) Strategies
Need: Shortage of affordable housing for all eligible populations

Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:

- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
  The MMHA annually reviews Payment Standards in an effort to insure that families will be able to find decent safe and sanitary units within all areas of Richland County, provided sufficient HAP funds are available.

- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
  The Mansfield MHA routinely holds landlord meetings and meets with the Richland County landlord association to provide information and updates on the Voucher Program.

- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration

- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
  The Mansfield MHA screens all applicants, pursuant to applicable provisions of federal law regarding criminal and drug related activity, along with reviewing provisions for lifetime sexual predators.
☐ Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
☐ Other (list below)

**Strategy 2: Increase the number of affordable housing units by:**

☑ Apply for additional section 8 units should they become available
☐ Leverage affordable housing resources in the community through the creation of mixed - finance housing
☑ Pursue housing resources other than public housing or Section 8 tenant-based assistance.
☐ Other: (list below)

**Need: Specific Family Types: Families at or below 30% of median**

**Strategy 1: Target available assistance to families at or below 30% of AMI**

☐ Exceed HUD federal targeting requirements for families at or below 30% of AMI in public housing
☑ Exceed HUD federal targeting requirements for families at or below 30% of AMI in tenant-based section 8 assistance
Because of the number of extremely low income families on the waiting list, the Mansfield MHA is able to assist more of those families.
☐ Employ admissions preferences aimed at families with economic hardships
☐ Adopt rent policies to support and encourage work
☐ Other: (list below)

**Need: Specific Family Types: Families at or below 50% of median**

(2) Reasons for Selecting Strategies
Of the factors listed below, select all that influenced the PHA’s selection of the strategies it will pursue:

- Funding constraints
- Staffing constraints
  Because of the continued cutback in administrative fee funding to operate the Voucher Program, the Mansfield MHA, as most voucher-only housing agencies, struggles to meet the ever-increasing program requirements mandated by Congress and HUD. The volume and nature of work associated with administering all facets of the program have increased dramatically over the years, and efforts such as the Small Housing Authority Paperwork Reduction Act are little more than window dressing and provide little actual relief to local agencies. Thus, often staffs must answer and meet reporting deadlines and other program requirements and have little time to devote to actually helping families locate units in acceptable areas.
- Limited availability of sites for assisted housing
- Extent to which particular housing needs are met by other organizations in the community
- Evidence of housing needs as demonstrated in the Consolidated Plan and other information available to the PHA
- Influence of the housing market on PHA programs
- Community priorities regarding housing assistance
- Results of consultation with local or state government
- Results of consultation with residents and the Resident Advisory Board
- Results of consultation with advocacy groups

MANSFIELD METROPOLITAN HOUSING AUTHORITY  
2014 ANNUAL PLAN  

PROGRESS STATEMENT IN MEETING GOALS OUTLINED IN 5-YEAR PLAN  

The Mansfield Metropolitan Housing Authority has been aggressively issuing vouchers in an effort to assist as many families through the Housing Choice Voucher Program as possible.

At the time of the development of this report, the MMHA is currently above the baseline number of families allotted under the HCV Program and will be reducing, through attrition, that number so as to not exceed the total annual baseline number of families.

To maintain the baseline number of families assisted (1710 per month), the Authority must continue to drawdown from its Net Restricted Assets as funding from the U.S. Department of Housing and Urban Development (HUD) is insufficient to enable the agency to assist the total number of baseline families each month.

Unfortunately, at some point in Calendar Year 2014, the agency will fall below the total baseline number of families as all of the available NRA funds will be expended.

And while the board of commissioners of the MMHA has authorized use of their own administrative fee reserve funds to assist in lease-up efforts, reported massive funding cuts by Congress and HUD to the HCV program in Calendar Year 2014 and beyond will go far beyond any additional funding the local agency funds may provide.

Therefore, until the funding situation is stabilized nationally, it is impossible to predict just how many families the agency will continue to be able to assist in the rest of the year and in the immediate future.

The Mansfield MHA continues its outreach efforts to landlords and the Richland County community with the dissemination of various brochures containing information on the Housing Choice Voucher Program, Housing Quality Standards and all general program requirements. The agency anticipates development of its own website this year which will further enhance outreach efforts.

Ongoing training for staff members is accomplished though Ohio Housing Authority Conference and national training sessions, with local full staff meetings held as needed to further educate employees on changes in policies and HUD program requirements. Viewing of the various webcasts as provided by HUD and national organizations such as NAHRO, NLHA and Nan McKay and Associates is also encouraged for various staff members.

Annually, the agency conducts Fair Housing Training for all employees with the cooperation of the Richland County and City of Mansfield Fair Housing offices.
Overall management of the Housing Choice Voucher Program remains high as the Authority continues to maintain its High Performer status through the Section Eight Management Assessment Program (SEMAP).

The Authority maintains ongoing working relationships with all of the local social service agencies including Job and Family Services, Community Action Agency, local Continuum of Care, the local domestic violence shelter, MRDD officials and other community leaders and agencies.
The Mansfield MHA works with local social service agencies, law enforcement officials and counseling services to identify and verify victims of domestic violence, sexual assault and/or stalking. If such victim is a current participant on the Authority’s housing programs, the agency follows all of the mandated procedures to insure that said victim and her/his family continue to receive rental assistance and that the perpetrator is no longer a member of the household and/or is removed from the household. The Authority notifies all prospective program participants and all landlords of the requirements of the VAWA provisions and assists said victims in any way possible to insure their safety and continued program participation.

Each family and participant receives statements and copies of all required VAWA documents outlining VAWA provisions and describing instances and examples of domestic violence, dating violence, stalking etc.

VAWA information and certification forms are available to all participants through their caseworkers and counselors.

As appropriate, MMHA caseworkers may determine through their interactions with clients of the necessity to file VAWA forms and begin the VAWA process. Caseworkers routinely may referrals to local law enforcement, social service and other agencies when suspected cases of violence or threatened violence or stalking is suspected or ascertained.

The MMHA maintains a close working relationship with these agencies in all such instances.

Finally, a mass mailing was conducted to all current landlords outlining their responsibilities and duties under VAWA, and these same documents are provided to new landlords or management firms/agents prior to commencement of any assistance in Authority housing programs.
